

Underpads

Product features

- 1 Slip-resistant backing keeps the pad securely in place.
- 2 Sealed edges prevent any fluid from escaping the pad.
- 3 Compact folding makes storage and transportation simple and efficient.

Product Material

- 1 Diamond-embossed top layer directs fluid downwards for fast drying.
- 2 Waterproof PE backsheet ensures surfaces stay clean and dry.
- 3 High-density absorbent core handles heavy pressure without leaking.

Customization Options

- 1 Flexible customization for materials, weight, and private label packaging designs.
- 2 Minimum order of 100,000 pieces per size for standard specifications.
- 3 Advanced customization available for non-standard sizes at 150,000 pieces.
- 4 Competitive pricing adjusted based on your specific material and volume requirements.
