
Anti-collision Corner Pad

Product features

Impact Absorption: Soft, shock-absorbent material cushions collisions, protecting walls, columns, and people from injury.

Durability: Resistant to wear, tear, and UV degradation.

Hygienic Design: Smooth, non-porous surfaces are easy to clean and disinfect, critical for healthcare.

Easy Installation: Self-adhesive backing, secure mounting on drywall, tile, concrete, and metal surfaces.

Aesthetic Versatility: Available in multiple colors and profiles to blend seamlessly provide high-visibility safety markings.

Versatile Style

Product Overview

Our crashproof corner guards are specially engineered to create a safer, more supportive living environment for seniors—whether in nursing homes, assisted living facilities, or family homes. Designed to minimize injury risks and enhance comfort, these guards provide peace of mind for caregivers and loved ones alike.
